## [Regions in Recovery](#)

2020 was the most extraordinary of years when conferences have been cancelled or postponed and normal flows of researcher engagement and networking have been heavily disrupted. So, what is the plan for 2021, a year in which we all hope that vaccines will roll out globally and we will slowly see a welcome return to more social interaction? A small number of societies and research-led organisations have come together and agreed that rather than run competing events we will contribute to co-hosting a festival of regional and related research.

Designed as a collaborative programme with a collegiate spirit in mind, the Festival seeks to maximise the value of a virtual event to all participants. Partner sessions will be integrated and hosted in a joint programme by the RSA and will be collectively promoted to a global audience for exchange, learning and engagement. This multi-partner event will run globally, online from 2nd June - 18th June 2021.

For more information on our Partner Sessions, please visit this page [2021 Regions in Recovery Partner Sessions](#)

[Click here](#) to submit an abstract. Abstract submission deadline – 17th March 2021.
